- directions along the track or tracks for approaching engines, trains, or train cars.
- (b) For improved vision and hearing, a window at the driver's left shall be opened and radios and other noisy equipment (fans, etc.) shall be turned off upon approaching the crossing and remain off until the bus has cleared the crossing.
 - (c) The school bus driver shall shift the bus into gear, look and listen, close the service door, release the parking brake, and drive across the tracks in an appropriate gear without shifting.
 - (d) After a train has passed the crossing, the bus driver shall not drive the bus onto any tracks until the driver is certain that no train, hidden by the first train, is approaching on an adjacent track.
 - (e) Crossing when flashing or audible signals malfunction is only permitted when authorized in accordance with section 4511.62 of the Revised Code.
 - (f) The bus driver must never assume that automatic signals or other devices are completely reliable.
- (2) Weather conditions – during wet, stormy or foggy weather, before placing part of the bus on the tracks, the driver must know that the crossing can be made in safety.
- (3) Behavior of passengers at railroad crossings – when any school bus is stopped for any railroad track, all passengers must be silent until the crossing is completed. A signal for silence shall be given by the school bus driver approximately three hundred feet from the crossing.
- (4) School bus railroad crossing procedures
- (a) Traffic checks shall be made upon the approach to the railroad crossing so that the driver can observe traffic and reduce speed far enough in advance of the stop to avoid trapping other motorists in panic stops or rear-end collisions with the bus. On multiple roadways, all stops must be made in the far right lane whenever possible and practical.
 - (b) At approximately three hundred feet from the railroad crossing, the driver must signal the passengers for silence, turn off noisy equipment (fans, etc.), turn off the warning lamp master switch if necessary, and actuate the strobe light, if available and if conditions warrant.
 - (c) Actuate the hazard lights at least one hundred feet from the railroad crossing, unless prohibited by local ordinance. No other signs or signals, except the strobe light, will be actuated from the bus while stopped or stopping at the railroad crossing.

- (d) Open the driver's window just prior to stopping.
- (e) Stop the bus within fifty feet and not less than fifteen feet from the nearest rail. Set the parking brake.
- (f) Shift the gear lever into neutral. This applies to buses with either standard or automatic transmission.
- (g) Open the service door and look and listen not less than twice in both directions for an approaching train, engines, or train cars.
- (h) Shift into the proper gear when the crossing can be made safely and there is sufficient space on the other side of the railroad crossing.
- (i) Close the door, continue to look for trains, engines, or train cars in hazardous proximity of the bus, and listen for any audible signals.
- (j) Release parking brake and proceed across the railroad crossing when safe to do so. Do not shift gears while crossing.
- (k) When the bus has safely cleared the last rail and is approximately fifty feet from the crossing:
 - (i) Turn off the hazard lights and strobe light;
 - (ii) Close window, if desired;
 - (iii) Turn on warning lamp master switch and heater fans, if needed;
 - (iv) Turn on radios.
- (l) Traffic checks shall be made to identify any hazards by motorists trying to pass the bus while completing the railroad crossing.

(C) School bus turn-around

- (1) Whenever possible, the bus shall be clearly visible to the other motorists five hundred feet in both directions.
- (2) Whenever possible, turn-arounds should not be scheduled at intersections where the vehicle must cross a lane of traffic while backing.
- (3) Four-way hazard lights shall be actuated unless prohibited by local ordinance.
- (4) The driver shall sound the horn twice before backing or have an audible signal while backing.

- (5) The driver shall not back the school bus at pick-up or discharge locations while pupils are outside the vehicle.

(D) Loading and unloading at school facilities

- (1) When it is necessary to load or unload pupils off the school grounds, the bus shall be positioned and parked (with parking brake set) so that pupils do not cross the roadway to get to or from the bus.
- (2) Warning flasher lights shall be deactivated when loading and unloading on school grounds or when loading and unloading from a school bus stopped off the traveled portion of the roadway adjoining the school grounds.
- (3) Parking for loading and unloading on school grounds shall be bumper to bumper or diagonal. Either method used shall exclude any necessity for backing the school bus. The rear and/or side emergency exits shall remain accessible at all times.
- (4) Pupils in the loading area shall be properly supervised by the building principal or designee.
- (5) Except when loading or unloading preschool or special needs children, the driver shall remain on the bus while pupils are loading and unloading.

- (E) Before receiving or discharging pupils, the bus shall be driven to the right side of the paved or traveled portion of the roadway and brought to a full stop.

- (F) The bus driver shall be the only operator of the service entrance door. The door shall not be opened to load or unload pupils until traffic has cleared the bus or come to a complete stop in all directions.

- (G) The bus driver shall not use the service door control to actuate warning lights. The door must remain in a securely closed position while the bus is in motion.

- (H) The bus driver shall not leave a school bus unattended with pupils on board except when loading or unloading preschool and special needs children or in the event of an emergency. Drivers who must leave their driver's position for these purposes shall not leave the immediate vicinity of the bus, except for an emergency.

- (I) The driver shall not leave the bus until the brakes are set, the engine stopped and the ignition key removed, with the exception for buses equipped with wheelchair lifts or diesel engines that require the engine to be running.

- (J) At the conclusion of each route or trip, the driver should ensure all passengers have left the bus by visually inspecting each seat position.

3327.02 Resolution declaring impracticality of transportation – offer of payment in lieu of transportation.

- (A) After considering each of the following factors, the board of education of a city, exempted village, or local school district may determine that it is impractical to transport a pupil who is eligible for transportation to and from a school under section 3327.01 of the Revised Code:
- (1) The time and distance required to provide the transportation;
 - (2) The number of pupils to be transported;
 - (3) The cost of providing transportation in terms of equipment, maintenance, personnel, and administration;
 - (4) Whether similar or equivalent service is provided to other pupils eligible for transportation;
 - (5) Whether and to what extent the additional service unavoidably disrupts current transportation schedules;
 - (6) Whether other reimbursable types of transportation are available.
- (B) (1) Based on its consideration of the factors established in division (A) of this section, the board may pass a resolution declaring the impracticality of transportation. The resolution shall include each pupil's name and the reason for impracticality.

- (2) The board shall report its determination to the state board of education in a manner determined by the state board.
 - (3) The board of education of a local school district additionally shall submit the resolution for concurrence to the educational service center that contains the local district's territory. If the educational service center governing board considers transportation by school conveyance practicable, it shall so inform the local board and transportation shall be provided by such local board. If the educational service center board agrees with the view of the local board, the local board may offer payment in lieu of transportation as provided in this section.
- (C) After passing the resolution declaring the impracticality of transportation, the district board shall offer to provide payment in lieu of transportation by doing the following:
- (1) In accordance with guidelines established by the department of education, informing the pupil's parent, guardian, or other person in charge of the pupil of both of the following:
 - (a) The board's resolution;
 - (b) The right of the pupil's parent, guardian, or other person in charge of the pupil to accept the offer of payment in lieu of transportation or to reject the offer and instead request the department to initiate mediation procedures.
 - (2) Issuing the pupil's parent, guardian, or other person in charge of the pupil a contract or other form on which the parent, guardian, or other person in charge of the pupil is given the option to accept or reject the board's offer of payment in lieu of transportation.
- (D) If the parent, guardian, or other person in charge of the pupil accepts the offer of payment in lieu of providing transportation, the board shall pay the parent, guardian, or other person in charge of the child an amount that shall be not less than the amount determined by the department of education as the minimum for payment in lieu of transportation, and not more than the amount determined by the department as the average cost of pupil transportation for the previous school year. Payment may be prorated if the time period involved is only a part of the school year.
- (E) (1) (a) Upon the request of a parent, guardian, or other person in charge of the pupil who rejected the payment in lieu of transportation, the department shall conduct mediation procedures.
- (b) If the mediation does not resolve the dispute, the state board of education shall conduct a hearing in accordance

with Chapter 119 of the Revised Code. The state board may approve the payment in lieu of transportation or may order the board of education to provide transportation. The decision of the state board is binding in subsequent years and on future parties in interest provided the facts of the determination remain comparable.

- (2) The school district shall provide transportation for the pupil from the time the parent, guardian, or other person in charge of the pupil requests mediation until the matter is resolved under division (E)(1)(a) or (b) of this section.
- (F)
- (1) If the department determines that a school district board has failed or is failing to provide transportation as required by division (E)(2) of this section or as ordered by the state board under division (E)(1)(b) of this section, the department shall order the school district board to pay to the pupil's parent, guardian, or other person in charge of the pupil, an amount equal to the state average daily cost of transportation as determined by the state board of education for the previous year. The school district board shall make payments on a schedule ordered by the department.
 - (2) If the department subsequently finds that a school district board is not in compliance with an order issued under division (F)(1) of this section and the affected pupils are enrolled in a nonpublic or community school, the department shall deduct the amount that the board is required to pay under that order from any payments the department makes to the school district board under division (D) of section 3317.022 of the Revised Code. The department shall use the moneys so deducted to make payments to the nonpublic or community school attended by the pupil. The department shall continue to make the deductions and payments required under this division until the school district board either complies with the department's order issued under division (F)(1) of this section or begins providing transportation.
- (G) A nonpublic or community school that receives payments from the department under division (F)(2) of this section shall do either of the following:
- (1) Disburse the entire amount of the payments to the parent, guardian, or other person in control of the pupil affected by the failure of the school district of residence to provide transportation;
 - (2) Use the entire amount of the payments to provide acceptable transportation for the affected pupil.

Standards for Employment of School Bus and School Van Drivers with Criminal Charges and Convictions

Provided by the Pupil Transportation Office,
Ohio Department of Education
April, 2010

The requirements for background checks for transportation drivers have changed several times over the last three years. The most recent change took effect on March 29, 2010. This document has been updated to reflect those changes.

The bill that enacted the changes on March 29, 2010, also directed ODE to update and revise rule 3301-83-23. Upon completion of that amendment, all transportation drivers will be subject to the disqualifications and rehabilitation standards set forth in that rule. Until that time, bus and van drivers will be evaluated as described below.

Employment of individuals for school transportation is governed by various statutes in the Ohio Revised Code and rules in the Ohio Administrative Code. This document is provided to assist individuals, school district personnel and others in the education community in applying the requirements pertaining to criminal background checks for school transportation staff.

Raising the ethical standards in Ohio

The State Board of Education and the state legislature have enacted policy and law to ensure that all individuals who work in Ohio's education system are appropriate to be in the profession. Various regulations apply to teaching staff, nonteaching staff, and pupil transportation drivers. One very significant aspect of these regulations is the completion of a criminal background check for all the aforementioned employees.

A brief synopsis of the changes in regulations for criminal background checks specific for pupil transportation drivers is as follows:

1984 – Rules adopted by State Board of Education that recommend a criminal background check for bus drivers.

1991 – Criminal background checks become mandatory for all new pupil transportation drivers, and are required to be renewed every two years.

1998 – Rule requiring criminal background check is revised to require a new check every six years with driver recertification instead of every two years.

2007 (July 1) – SB 97 becomes effective that requires employers to obtain federal information in addition to the state information for each new transportation employee.

2007 (Nov 14) – HB 190 becomes effective requiring employers to obtain federal information in addition to state information for all employees on a regular cycle. For drivers of pupil transportation vehicles, this includes pre-employment and at their six year renewal. This bill also adds language to RC 3327.10 (K) that identifies criminal offenses to be monitored and a rehabilitation program for some of those offenses.

2008 (Sep 12) – HB 428 becomes effective; amending R.C. 3327.10(K) to refer to the list of criminal offenses in 3319.31 (C) that are absolute bars from employment for drivers of pupil transportation vehicles. The bill also removes any reference to rehabilitation for other offenses. This same bill also requires districts to suspend any employee arrested, summoned or indicted for an alleged violation of offenses listed in 3319.31 (C) (if a licensed employee) or 3319.39 (B)(1) (if a non-licensed employee).

2010 (Jan 1) – HB 1 amendment becomes effective that eliminates the need for a state BCII check for recertifying drivers if an initial check was completed at hiring and if they can prove Ohio residency for the previous five years. FBI checks are still required for all recertifying drivers.

2010 (Mar 29) – HB 19 takes effect, changing the disqualifying offenses for pupil transportation drivers, and directing ODE to amend its rule 3301-83-23 to include a new list of disqualifying offenses specific to school bus and school van drivers, and the rehabilitation standards for them. Until that rule is amended school bus and school van drivers are evaluated

The culmination of this progressive series of revisions in the law is that a specific list of criminal convictions is identified that precludes individuals from employment as a school bus or school van driver. Rules have been adopted that require these criminal records to be checked for each driver at pre-employment and with each driving certification renewal. It is the

intent of these laws and rules that only appropriate individuals seeking employment in pupil transportation be hired, and that Ohio's children are being served by individuals committed to a safe, supportive, and healthy community.

Standards used for different roles in pupil transportation

The standards reviewed in this document are applicable to drivers of pupil transportation vehicles. Effective on March 29, 2010, these standards are the same as those for other transportation employees who are not licensed as school educators.

Drivers who are also employed in another capacity for a school must be evaluated in accordance with the regulations that pertain to that other capacity in addition to meeting the requirements that pertain to being a driver. Example: A building custodian is also used as a school bus driver. The requirement for background checks for building custodians is that the checks must be completed each five years. The requirement for bus drivers is six years. In this case, the individual must follow the shortest cycle which is five years. We recommend that the individual be recertified as a bus driver at the same time (i.e., five years) so that the same criminal background checks can be used for both positions.

Criminal background checks for bus and van drivers. (ref. ORC 3327.10, 3319.31 (B)(1) and 3319.40)

Ohio Revised Code §3327.10 (J) requires employers to conduct criminal background checks on individuals applying for or employed in a position as a driver of a vehicle used for pupil transportation. Those background checks must be requested prior to the person's hiring, and every six years thereafter.

Furthermore division (G)(2) of section 3327.10 of the revised code requires that the required criminal records check required in division (J) be completed and received by the public or private employer prior to permitting the individual to operate a vehicle used for pupil transportation.

For any individual who is recertifying, the employer shall request only criminal records from the FBI if a state check was completed at initial hire, AND the person presents proof that that they have been a resident of this state for the five-year period prior to the date upon which the new criminal records check is due.

In §3327.10 (K) the code stipulates that persons who have been convicted or pled guilty to any offense identified in division (B)(1) of section 3319.39 of the Revised Code shall not be hired or shall be released from employment.

Employers may wish to consider adopting local policy regarding convictions for other offenses NOT included in 3319.39 (B)(1), including

what conditions they may wish to implement in the consideration of employment of these individuals.

A second provision in HB 428, effective on September 12, 2008, creates a new Revised Code Section 3319.40 and requires that school districts suspend employees who have been arrested, summoned, or indicted for an alleged violation of an offense listed in 3319.39 (B)(1) (for non-licensed employees).

A summary of the offenses listed in both of these sections follows the text in this document.

Requirements for when to complete the background checks

Ohio Administrative Code 3301-83-06 and 3301-83-10 establish the cycle of background checks, training and certification requirements for drivers. Background checks must be completed as part of the application process for bus or van driver certificates. No certificate may be applied for without the employer's certification that the background check has been requested and received by the employer.

List of disqualifying offenses

For all offenses listed, an applicant cannot be hired or shall be released from employment.

For all offenses listed, employers are required to suspend the employee during the pendency of the criminal action. Each district may determine its own policy with regard to continued employment of these individuals during this period.

A specific rule for bus and van drivers (3301-83-23) is being revised as required by law. Pending adoption of that revised rule, Revised Code stipulates that bus and van drivers shall be evaluated in accord with rule 3301-20-03, Employment of non-licensed individuals with certain criminal convictions.

The application of this rule is as follows:

Following adoption of amended Rule 3301-83-23, this document will be revised to reflect changes in the standard.

 - (c) The age of the applicant or employee when the crime was committed;

Guidelines Regarding the Safe Transportation of Oxygen on a School Bus

The Department of Education has established the following guidelines regarding the safe transportation of oxygen on a school bus:

- A. Oxygen shall be transported on school buses only when it is medically necessary. The Individualized Education Program (IEP) for a child with disabilities must document the oxygen use requirement.
 - 1. Prior to initial transportation, school administration and transportation personnel should be informed as to the type and size of the oxygen tank to be transported.
 - 2. Regarding a student using oxygen only on an “as needed” basis, the decision as to what is necessary is the responsibility of trained medical personnel only. This decision is not the responsibility of the bus operator or aide.
 - a. A determination must be made as to who will load and unload the medical support equipment. Appropriate training must be provided for these procedures.
 - 3. The development of an emergency plan is strongly recommended in the event of a medical emergency or equipment failure.
 - 4. It is recommended that only one medical support device per student be transported.
 - 5. The transportation department should not assume responsibility for storing any medical equipment.
 - 6. Changes in medical equipment or transportation must be so noted on the IEP.
 - 7. A contingency procedure should be developed to avoid oxygen being transported without proper securement in the event the regular bus breaks down.
- B. Oxygen must be transported in a secure container maintained in accordance with the manufacturer's instructions. The oxygen must be housed in a portable unit and should be less than 15 pounds total weight.
 - 1. Gas oxygen tanks shall have a maximum capacity of twenty-two (22) cubic feet (Medical E). Medical E tanks are usually no larger than 4 ½ inches in diameter and 31 inches in length.

2. Liquid oxygen units shall have a maximum capacity of thirty-eight (38) cubic feet and be no larger than 5 inches in diameter and 13 inches in length. For transportation purposes, these units must not be larger than 38 cubic feet.
 3. All oxygen shall have valves and regulators that are protected against breakage. Manufacturer's precautions are usually printed on a label attached to the cylinder and should be followed whenever possible.
- C. All oxygen tanks shall be securely attached to prevent movement and leakage. This securement should be located on the sidewall of the school bus in the upright position at a rib or body support in a rack or mounting bracket capable of sustaining five (5) times the weight of the tank and contents.
1. Since they are under pressure and could accelerate a fire, all oxygen tanks (gas or liquid) must be secured away from intense heat or friction.
 2. In cases where the oxygen is attached to a wheelchair or other support equipment, the tank shall be removed and secured prior to transport.
 3. Oxygen tanks or other medical support equipment shall never be stored or secured in the head impact zone.
- D. While it is not mandatory to place any placards or labels on the bus, a decal indicating medical support equipment is in use may be helpful to emergency personnel in the event of an accident.

The transportation of oxygen on a school bus creates added concern and responsibility to all involved. However, with prior planning and proper securement, oxygen can be safely transported.

School Bus Driver Recertification **A review of Driver Recertification Procedures**

Issued by the Office of Pupil Transportation

Updated--5 September 2008

1. All drivers must recertify on a 6 year cycle. This six year cycle begins on the date of issue of their most recent preservice certificate.
2. Drivers need to complete the requirements for recertification during their 6th year of driving after their most recent preservice certificate.
 - a. Example: A driver is trained and receives a preservice certificate in February 2000. The first 12 month period is considered year 1 (ending Feb 2001 for this driver) . . . the 6th 12 month period is considered year 6, in this case ending Feb 2006. The driver must initiate and complete recertification during year six. Without a new certificate, he/she may not drive in March of 2006.
3. Undated and Ohio basic certificates are no longer valid.
4. A driver may recertify earlier than their 6 year cycle.
 - a. Admission to a recertification class may be limited to space available, with priority given to drivers who must recertify in the year the class is being taken.
 - b. We do not recommend that districts send all their drivers through recertification at the same time.
5. The certificate of any driver who has not driven for two or more years is considered to be invalid. That driver must complete either a new certification program or complete recertification prior to resuming transportation of pupils.
6. There are three separate parts to recertification. All must be completed and documented on a T-9 form available from the regional preservice instructor.
 - A) BCI Criminal background check, including BOTH state and federal information, must be completed no more than 12 months prior to the application for recertification (OAC 3301-83-06(B)(10)).
 - a. A current list of disqualifying convictions is contained in ORC 3327.10, and by reference RC 3313.31(C) and 3313.39 (B)(1). A document that provides guidance on evaluating criminal background checks is available on the Pupil Transportation site of the Ohio Department of Education website.

- b. This check must be completed and written evidence on file with the driver's employer. The evidence of the check is not to be submitted with the application.
- B) Attend an Ohio Pre-Service School Bus Driver Training recertification class (3301-83-10(F)(1)). This class shall be valid for 12 months for application for a certificate. Class schedules can be obtained by contacting the area preservice instructor.
 - a. As an alternative to class, drivers may substitute attendance at a recertification class by completing an Ohio Pre-Service Advanced School Bus Driver Training Course no more than 24 months prior to the application for recertification (3301-83-10(F)(5)).
- C) Complete a driving performance evaluation with a certified On-Bus Instructor (OBI) (3301-83- 0(F)(3)). OBIs are selected by their districts, and trained and certified by Ohio Preservice Instructors.
 - a. The driving evaluation also includes a pretrip inspection. A prescribed pretrip inspection procedure and form will be demonstrated to the applicant, who will in turn be asked to demonstrate the pretrip inspection when they are comfortable with it. The driver applicant will be allowed to carry the written form with them as they complete the inspection. The forms used are located in the Ohio preservice manual.
 - b. A driver will have up to three opportunities to successfully demonstrate the driving skills with an OBI designated by the school bus owner.
 - c. A driver may request a fourth opportunity if necessary to be administered by an Ohio Preservice Instructor. The driver must be offered appropriate driving instruction prior to this fourth opportunity.
 - d. As an alternative to the driving performance evaluation a driver may participate in a state and/or regional school bus driver safety ROAD-E-O, and must achieve a minimum of eighty percent of the possible points. The date of the ROAD-E-O can be no more than 24 months prior to the application for recertification (3301-83-10(F)(6)).
- 7. After all of the steps above have been completed the recertification application (T9) must be completed, documenting the above steps and the candidate's successful completion. This form must be electronically submitted to ODE NO LATER than 30 days prior to the expiration of the driver's current certificate.

8. If the application is submitted late, a certificate may still be issued, but no guarantee will be made that it will be issued prior to the expiration date of the old certificate.
9. No driver may operate a school bus with pupils on board without a current preservice certificate. A copy of the current certificate must be on file with the school bus driver's employer, and must be made available for inspection when requested by the Ohio Department of Education or its assignee.
10. Temporary preservice certificates are not valid for use with drivers who need to recertify. These certificates may only be used for new drivers who are completing all required steps for new school bus drivers.

**Use of Preservice Temporary Certificates
Position Paper Published by Ohio Department of Education
Pupil Transportation Office
September 23, 2008**

In accordance with OAC 3301-83-10, every school bus driver in the state of Ohio must complete the Ohio Preservice Driver Training program prior to transporting students on a school bus. Completion of this program is acknowledged by the issuance of a preservice driver training certificate by ODE, which is valid for six (6) years from the date of issue.

Under unusual circumstances, a temporary preservice certificate may be issued one time by the employing superintendent that is valid for not more than 90 days. The conditions for use of these temporary certificates are as follows:

1. The driver must have completed all behind-the-wheel training and been successfully evaluated by an OBI on both driving and pretrip skills.
2. A satisfactory criminal background report is on file with the employer.
3. A satisfactory driving history report is on file with the employer.
4. A satisfactory T8 physical is on file with the employer.
5. A satisfactory pre-employment drug screen has been completed.
6. The driver must hold a valid CDL with passenger and school bus endorsements.

7. The driver must have completed training on all district procedures, including but not limited to route procedures, safety and emergency procedures, and local rules and regulations.
8. The driver must be familiar with all ODE Pupil Transportation Operation and Safety rules.
9. All training information recorded on the T-9 paper form must be entered in the web-based reporting system.
- 10. Temporary preservice certificates are NOT valid for drivers who are applying for recertification.**

The intent of these certificates is to accommodate districts who have completed all training for a new driver, but who have a need to employ the driver prior to completing the classroom portion of the preservice program, or for drivers who have completed all portions of the program including classroom but not yet received their six year certificate.

District administrators may obtain temporary certificates from their regional preservice instructor upon proof that the driver candidate has completed all the required steps and has been entered into the ODE driver reporting system.

All temporary cards shall be signed and dated by the appropriate administrator to be considered valid.

For questions regarding the administration of this program, please contact the pupil transportation office at ODE.

Guidelines for Determining Driver-designated Place of Safety November 18, 2005

Chapter 3301-83 of the Administrative Code contains operation and safety rules regulating pupil transportation and governs all pupil transportation in Ohio. These rules pertain to both safety and administrative procedures for pupil transportation. Compliance with these rules is mandated under Ohio Revised Code 4511.76.

Within this chapter are rules specific to a driver-designated place of safety for students who are loading or unloading from school buses. The primary reference is in Section 3301-83-13 B6, and reads as follows: "Each pupil shall be assigned a residence side designated place of safety. Driver must account for each pupil at designated place of safety before leaving. Pupils are not to proceed to their residence until the school bus has departed."

In section 3301-83-08 C2, additional language states: “Pupils must wait in a location clear of traffic and away from the bus stop.”

The purpose of the place of safety is to reduce as much as possible the potential of a student being hit by a school bus while he/she is in the process of being picked up or dropped off.

While the code cited above does not further define a “designated place of safety,” a standard of teaching has been developed within the preservice program that all bus drivers are required to participate in. The following principles are being taught to bus drivers as reflective of “best practice.”

1. The place of safety should be at least 20 or more steps away from the bus stop. (Drivers are instructed to teach ‘steps’ instead of feet so that the distance will be readily understood by all ages of students being transported.)
2. The place of safety should be far enough away from the bus so that the bus can proceed without any chance of the student running back into the path of school bus as it leaves the designated stop.
3. When possible, the driver should choose a stationary and recognizable object – such as a flag pole, garage door, or sign post.
4. The place of safety should be such that a driver can account for the location of the child before moving the bus. At stops with multiple students, a place of safety should be identified where each student can be seen.
5. School bus drivers who do not believe a place of safety can be determined at a given stop should communicate with their supervisor and ask for assistance.
6. Drivers should always count their students twice before leaving the school bus stop.
